Why Philippines & Cebu

Cebu, the best place to study English and relax

Cebu, a popular tourist destination, is a large tropical island in the southeast of the Philippines. Cebu Blue Ocean Academy is uniquely situated right by the ocean with beautiful beaches and resorts nearby, providing a delightful environment for studying English. It's the ideal choice for students seeking a blend of freedom, travel, and English education.

English Learning with foreigners

The Philippines was only popular as a vacation spot; but now, it is a top choice for studying English, alongside countries like the US, UK, Canada, and Australia. Since the 1990s, people have been coming here to learn English, and their improvements over the years have proven the effectiveness of these English programs. For those less confident in their English skills, the Philippines is paradise for English learning. Many international students come here and find great success in improving their English skills.

An environment where you can comfortably focus only on English

When studying in other English-speaking countries, you must handle complex departure procedures, accommodations, and meals upon arrival. However, at our academy, we simply handle these procedures and provide full support for daily life, including meals and cleaning, allowing students to only focus on their English studies.

Cebu Blue Ocean Academy

An ideal academy that has never been seen before, but that everyone wanted.
The whole management at Cebu Blue Ocean Academy always does its best to provide efficient English learning and convenience for students under the motto “nothing compares.”

Exceptional professional teachers that other academies envy

Teachers underwent Pines International Academy’s strict hiring and training system. Teachers are selected among the best who received over 98% in student evaluations over many years. Teachers conduct classes directly.

Proven Curriculum

Cebu Blue Ocean Academy has developed ESL courses using a proven curriculum to help students enhance their English skills quickly. Additionally, we provide an exclusive Business Course designed to bring students closer to achieving their dreams.

Satisfying Meals that Delight Students' Dining

Our international students enjoy nutritious and well-balanced meals. We strive to improve and diversify our menu to provide a wide range of dining options.

Safe campus

To prioritize student safety, we've placed 64 CCTVs throughout the campus, covering lecture halls and dormitory hallways. We've also installed fire detectors, alarms, sprinkler systems, and fire extinguishers for enhanced fire safety.

"Cebu Blue Ocean has an optimized environment for education and relaxation."

Cebu Blue Ocean Academy takes pride in its exceptional resort facilities that provide stunning views of the beautiful emerald waters of Cebu. Our resort-style campus features hotel-style dormitories and scenic swimming pools set amidst picturesque surroundings. Our fully-equipped campus is thoughtfully designed to improve your speaking skills and includes spacious 1:1 and 4:1 classrooms, a gym, a cafe, and other cutting-edge amenities.

Diverse and high multinational student ratio

Our students have diverse backgrounds from countries like Japan, Taiwan, China, Vietnam, Russia, Korea, Saudi Arabia, Thailand, and more. By studying and living alongside peers from various backgrounds, you'll naturally engage in English conversations, enhancing your overall learning experience and effectiveness.

A specialized English academy with longstanding tradition

Cebu Blue Ocean Academy is closely affiliated with Pines International Academy, a highly regarded institution in the field of English learning. This connection allows the academy to benefit from a well-established curriculum and management system, providing students with an enriched English learning and living experience.

Study & Relax Together

You can enjoy a variety of activities such as scuba diving, yoga, fitness exercises, massage, and nail art. You can study without stress at our luxurious resort facilities.
